SUMMARY

Digital Marketing professional and Bachelor of Information Systems graduate with hands-on experience in social media management, content creation, Meta Ads, website management, graphic design, video editing, and AI-assisted content production. Experienced in developing promotional content for wellness, tourism, lifestyle products, and internet services, from content planning and copywriting to visual production and website updates. Proficient in Canva, CapCut, WordPress, Elementor, ChatGPT, Google Gemini, and Google Flow. Detail-oriented, adaptable, and able to combine creative, technical, and analytical skills to maintain brand consistency, support audience engagement, and strengthen a company's digital presence.

WORK EXPERIENCE

Digital Marketing, Jyooty Bali

May 2024 - Present

- Create social media content, promotional copy, short-form videos, brochures, catalogs, flyers, and other digital marketing materials.
- Manage and update company websites using WordPress and Elementor to support product, service, and campaign promotions.
- Use AI tools to assist content ideation, copywriting, image generation, video creation, and creative campaign development.
- Support social media management, Meta Ads materials, content scheduling, and basic campaign performance monitoring.
- Maintain consistent brand communication and visual identity across social media, websites, and printed promotional materials.

Freelance Social Media Manager, Benoa Tirta Harum Dive & Watersport

Feb 2024 – Dec 2025

- Managed social media content and digital promotions for tourism and watersport services.
- Created promotional posts, flyers, captions, advertising materials, and audience-focused campaign concepts.
- Supported Facebook Ads campaigns to increase business visibility and reach potential customers.
- Coordinated remotely with the team regarding content requirements, promotions, and campaign updates.

Digital Marketing Intern, Trikamedia (ISP Company)

Mar 2025 – Jun 2025

- Created educational and promotional content related to internet services, Wi-Fi, cybersecurity, and digital technology.
- Prepared content concepts, captions, headlines, call-to-action copy, infographics, and social media visuals.
- Supported content scheduling, basic engagement monitoring, and social media branding activities.
- Simplified technical topics into clear and engaging content for general audiences.
